

# Weapons

## How do I get a weapon with those crazy amounts of skill, like 10k skill?

You can only acquire them from trading. Those weapons have a lot of skill because they were obtained and enchanted a long time ago when there wasn't a limit on how much you can enchant a weapon. These weapons are called "Antiques" or "Tiques" for short. They are among the most valuable items in the entire game based both on their superior stats and rarity.
