What is the best combination of weapons/armor?

That would depend how rich you are and what you want (attack, def or skill). If you are rich enough, go with an all tique suit but for everyone else these are typically what you would wear with respect to which area you wish to specialize.

Attack Suit

Head: Spiked Helm

Body: Koutesu

Feet: Crystal Swift Boots

Right: Silver Amini Club

Left: Crystal Gauntlet

Best Defense Suit

Head: Imacaci Mask

Body: Dragon Scale Jacket

Feet: Crystal Swift Boots

Right: Silver Amini Club

Left: Crystal Jaguar Fang

Skill Suit

Head/Body: Jaguar Mantle

Feet: Silver Sea Slippers (old) otherwise, Crystal Swift Boots

Right: Silver Amini Club

Left: Crystal Gauntlet

Overall Suit

Head: Spiked Helm

Body: Dragon Scale Jacket

Feet: Crystal Swift Boots

Right: Silver Amini Club

Left: Crystal Gauntlet

The overall suit is a bit tricky-er. The SAC and CSB you can see was in every catagory so no brainer there. The Jaguar Mantle sacrifices attack and defense, so instead, opt for the spiked helm/DSJ combo. The helm and DSJ combo make up and surpass the att/def of the mask/kout combo. The only question becomes the lefty. Wear a CJF (higher def and overall stats) or a CG (higher attack and skill) ? The stats of the suit so far is: 269a 263d 1593s; even att and def. I would pick the crystal gauntlet because of the attack and skill. Higher skill means you have a better chance of attacking first, combine it with the higher attack and you have a better chance of killing it on the first hit.

However, all of this depends on the stats of the particular weapon. You could wear a mask/kout/SSS/SAC/CJF combo that is better, or any other suit combonation. All the suits above was computed by using the starting stats in the code and taking into account what can be bought.
