

# Ranking and Courting Questions

## How do I see my exact favor?

To see your exact favor (for the first time of the day), log out and go to "lists", then to "rank". This will be your favor at the moment. Now, hit refresh the game and once it has go to "lists" again. This is important because if you don't, every time you hit lists (on the logout screen) it will bring back the old one BUT if you refresh, when you logout it will load an updated list.
