

# Information on Clans

## What are the Clan Powers and how do I activate them?

Titan's powers are as follows:

Agile - +10% Skill

Quick - +4 quests per level (instead of +3)

Sturdy - +10% Defense

Strong - +10% Attack

Merchant - Sell items for more money and +20 pack AND storage space

To activate the clan powers, you just have to join the clan. After the next game reset, they'll affect your character. If you don't play for two weeks, the powers will wear off. The next time you log on, they won't be in effect; don't worry. Just wait until the next reset and they'll work again.
